Re: Notice of File Closure for Small Mining Activities, Lob #41, S/019/025, Grand County, Utah

Dear Mr. Cooper:

On November 15, 1996, the Division performed an inspection of your Lob #41 small mining project, located in Section 33, T18S, R25E, Grand County, Utah. The BLM has previously inspected the project area and closed out their file. The Division was required to perform an inspection prior to determining if our file could be closed. The inspection determined that there was no mining related disturbance in or around the site as described on the map in the original Notice. We are therefore, closing and retiring our file for this project and hereby release you from further reclamation responsibilities at this project site. If you wish to perform any future mining activities at this site, you must submit a new Notice of Intention to the Division and the appropriate land managing agency, prior to any activity taking place.

If you have any questions or concerns regarding this letter please notify me.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
